

VENDOR 2: ROSEWOOD

All Rosewood products are rbgh free. Rosewood cheeses are not organic. The raw milk cheeses and some of the pasteurized cheeses are white. Raw milk cheese is made from unpasteurized milk, which is easier to digest because the beneficial bacteria have not been killed. Those that are yellow are colored using carotene, a natural orange/yellow color from carrots. The prices if given are per pound or package and can vary up to 20 cents per pound.

Please note that some cheeses come in 5,6,8 or 13 pound quantities. If you do not order an entire loaf yourself, then purchase as large a quantity as possible. It will help the batcher if you give a minimum and maximum quantity that you would prefer to get. Just write 2-3 lbs or whatever suits you. If you want the whole loaf, just write the total amount contained in the loaf. Also, indicate if you are flexible on the type of cheese you would like, such as sharp cheddar versus medium sharp cheddar.

If you have not gotten a cheese that you ordered a couple of times, please request that it be put on the wish list. Please specify both the item number and the description.

Rosewood carries a wide variety of tofu products that can be purchased in bulk sizes. If you are interested in ordering a Rosewood item that is not listed below, please contact the order batcher for more product information. Lightlife, Turtle Island, Edensoy, and Galaxy are some of the vendors' products that Rosewood sells that are not listed below.
